San Antonio ISD Athletic Hall of Fame

STATEMENT OF PURPOSE

The San Antonio ISD School Athletic Hall of Fame was founded in 2014 to recognize and preserve the heritage of high school athletics in San Antonio ISD, to keep alive their tradition and spirit, and to honor each year those persons who through distinguished achievement have excelled in one or more high school athletic program.

Hall of Fame nominees shall include individuals who have raised the level of awareness in high school athletics through their distinguished achievement and excellence in one or more high school athletic programs sponsored by SAISD; or through their contributions to high school athletics in other fields of work. These individuals may include student-athletes, coaches, administrators, contest officials, media personnel, sports medicine personnel, athletic trainers, or distinguished volunteers. Nominees may be retired from their field, or still active. Nominees must exemplify the highest standards of sportsmanship, ethical conduct and moral character.

The categories of student-athlete, coach, administrator, and contributor are included on the nomination form for expediency in understanding the primary area in which an individual is to be considered for his or her achievements in high school athletics. These groupings are for screening purposes only and to assist those in making the nominations in understanding the type of information required. Once nominees are inducted, they are not categorized, but all are recognized as members of the SAISD Hall of Fame. To further explain:

- A **student-athlete** is a former student participant who is being nominated for his or her achievements in high school athletics. To be eligible for nomination, a student-athlete must have graduated from a San Antonio ISD high school 15 or more years ago. Student-athletes will be considered primarily for their achievements as a high school student-athlete. Limited consideration will be given to their achievements on the college or professional levels. Character during and after their high school years, however, will be a major consideration. Candidate must not be a member of the Selection Committee when considered for induction into the Hall of Fame and must be free of felony violations of the law. Nominees will be considered posthumously.
- An **administrator** will be considered primarily on the merits of his or her service as a high school athletic administrator, district athletic administrator and/or state athletic administrator. The nominee's character also will receive consideration. To be eligible for nomination as an administrator, the individual must have served as a high school administrator for a minimum of 20 years or as a high school administrator and coach for a minimum of 15 years, of which at least 10 years must have been as an administrator.
- A **coach** will be considered primarily for his or her achievements in senior high school coaching. Secondary consideration will be given to the nominee's achievements as a collegiate or professional coach. The nominee's character both in high school and other levels also will receive primary consideration. To be eligible for nomination as a coach, the individual must have served as a high school coach for a minimum of 20 years.
- A **contributor** is an individual who has made contributions to high school athletics in some capacity other than those previously mentioned, including such areas as sports media, sports medicine, sports official, sports announcer or supporter. A nominee will be considered primarily on the merits of his or her contributions to high school athletics and must have been involved in high school athletics for a minimum of 20 years. The nominee's character also will receive consideration.

All nominees will be judged on their significant and/or long-term contributions to high school athletics. While many have served their schools or areas over a long and distinguished career, their accomplishments must have been worthy of district-wide recognition for them to be considered. Longevity, without meaningful statewide impact, does not constitute appropriate credentials for Hall of Fame consideration. The Hall of Fame Committee may consider a nominee's total record of contribution to high school athletics in determining eligibility for candidacy and not just his/her record of service in the category in which the nomination is made. The Committee also may waive the minimum years of service requirement when exceptional circumstances such as injury, illness, or death have prevented an otherwise worthy candidate from meeting the requirement.
